

## Rules for buses and coaches parking in Vienna-Nußdorf

Buses and coaches are not permitted to park right next to the mooring stations! Only short drop-off and pick-up windows are authorised in the bus and coach access area. Buses and coaches must be parked in such a way as to guarantee other buses unrestricted passage, and so that passengers can enter and leave the bus on the side facing the river. Buses are not permitted to stop or park near the terminal turn-about road.

All bus/coach activity is subject to the morning departures schedule for buses and suppliers. The 'slot' for Danube stations no. 29 and no. 34 **starts at 09.00**. No coach passengers may be picked up for outings on land before this time. Please ensure this information is integrated into your own schedule for trips on land and ensure your bus/coach companies and guides are aware of this fact.

All drivers must drive slowly when arriving and departing, and ensure there is mutual consideration among all users due to the limitations on the space available!
